

Goodbye Freezer 7 Pro, Hello Freezer 7 X!

ARCTIC's long-running CPU cooler gets a worthy successor

It feels like the end of an era: the Freezer 7 Pro has long been one of our most loyal companions, and even though it wasn't a high-performance beast, it was known and loved by countless customers around the world. But after more than 10 years together, it's time to say farewell.

Out with the old, in with the new. With the new **Freezer 7 X**, we're able to present a successor that not only builds upon the success of its renowned predecessor – it outshines it.

The **Freezer 7 X** reaps the benefits of an improved heatsink design along with a reworked heat pipe layout. In conjunction with the fan, which is optimized for high static pressure, we were able to significantly improve the cooling performance of the **Freezer 7 X**—and at a price that has been driven down by optimized and more efficient manufacturing processes.

What's changed?

Pressure-optimised Fan

With a PWM controlled, pressure-optimised 92 mm fan, the Freezer 7 X offers high cooling power at a low price.

Direct-Touch Heatpipes

Two direct-touch heat pipes with pre-applied MX-2 thermal paste enable ideal heat dissipation.

Multi-Socket Compatibility

Good across the board: comprehensive compatibility and easy installation thanks to varied mounting options for both Intel and AMD.

Full Heatsink Cover

The Freezer 7 X's black heat sink cover makes it visually impressive.

Fans of the Freezer 7 Pro can rest assured: if you liked the Freezer 7 Pro, you're going to love the Freezer 7 X. Above all, this compact and light CPU cooler proves once again that at ARCTIC, high quality doesn't have to come at a high price.

Main Facts

- Compatible with Intel & AMD socket
- Pre-applied MX-2 thermal paste
- Extended life span thanks to low coil temperature
- Lower power consumption and less vibrations with new motor technology
- Offset heat pipes ensure optimal heat dissipation

TECHNICAL DATA	
Heat Pipe	Direct Touch Ø 6 mm x 2
Heatsink	Aluminium Fins x 44, Thickness: 0.4 mm
Thermal Compound	MX-2 pre-applied
Fan	1x 92 mm, 300 – 2.000 RPM (Controlled by PWM)
Bearing	Fluid Dynamic Bearing
Connector	4-pin Connector
Noise Level	0.3 Sone
Current/Voltage	0.07 A/12V
Dimensions	74.3 (L) x 110.5 (W) x 132.5 (H) mm
Net Weight	425 g
Socket Compatibility	AMD® FM1/2(+), AM3(+), AM4 Intel® 115x, 1200, 775

About ARCTIC

ARCTIC is a leading manufacturer of silent PC coolers and components and has initiated and sustainably influenced the trend towards quiet cooling systems. Besides a wide range of CPU and GPU coolers, ARCTIC offers high quality monitor mounts as well as an audio product line. The company, run by founder Magnus Huber, has locations in Germany, Hong Kong and the USA and convinces pc enthusiasts in over 45 countries with innovative and user-friendly products, high quality and fair prices. For more than 15 years ARCTIC stands for comfortable computing, excellent service and personal support.
